

Correlation Engine

Customer Release Notes

Version 2.5.1

February 24, 2025

Introduction

These Release Notes detail the latest release of Correlation Engine, including known issues.

Correlation Engine provides an interface with tools and content for exploratory, preclinical, and early translational research in drug discovery and biotechnology research. The software is a multidimensional integration platform designed to search and correlate global collections of heterogeneous, large-scale experimental data across diverse platforms, organisms, and therapeutic areas.

NEW FEATURES:

- None

FIXED ISSUES:

- Fixed an issue where recent clinical trial results were not showing
- Fixed an issue where RNA-Seq study count was not showing
- Fixed an issue where admin console access was blocked
- Fixed an issue where user groups were not indexed/updated

KNOWN ISSUES:

- None
